

## Luna

### **Indiana Line – an Italian brand with traditions**

Indiana Line is one of the leading Italian brands offering loudspeakers and installation speakers. Its traditions date back to 1977. The goal of engineers and designers working for the Indiana Line brand has always been the highest quality of workmanship, with a rational approach to the components used. This made it

possible to achieve sonic qualities that go far beyond the parameters of competitive models in a similar price range.

### **Indiana Line installation speakers**

The Indiana Line installation speakers have been created to amplify even large rooms. Therefore, they will work well not only in a living room, but also in facilities such as restaurants and shops. They are perfect for both stereo and multi-channel installations (e.g. for reproducing the sound of effect channels). In this group of Indiana Line models you will find both wall-mounted constructions, as well as those intended for installation in the ceiling or built into the wall. The universal design of the Indiana Line installation speakers makes it possible to easily integrate them into any interior design.

### **Luna – a moisture-resistant installation speaker**

Luna is a 2-way loudspeaker, which will be perfect for amplifying even a large space. It uses a 166 mm woofer with a polypropylene and mica membrane and a high-performance tweeter for a powerful and dynamic sound. A special

bracket allows for perpendicular or horizontal installation, depending on the user's preferences. Importantly, the cabinet and membranes of the transducers are moisture-resistant and sun-resistant, which allows the Luna model to be installed outdoors.

### **The most important features of the Luna model:**

- 2-way acoustical design
- Sealed cabinet
- Crossover frequency: 4 kHz
- 166 mm bass-midrange driver
- 20 mm tweeter
- Frequency response: 58 Hz to 22 kHz
- Finish: ice white
- Aluminum cover
- Suggested amplifier power: 20 – 80 W
- Sensitivity: 92 dB (2,8 V / 1 m)
- Dimensions (H x W x D): 240 x 180 x 160 mm
- Weight: 2,3 kg
