

NOTA 240 X

Indiana Line – a brand with traditions

Indiana Line has become one of the most important Italian brands offering loudspeakers. Its traditions date back to 1977. The goal of the Indiana Line engineers and designers has always been the highest quality of workmanship and the rational use of components in order to achieve sonic qualities that go far beyond the parameters possible to obtain in this price range.

Nota – excellent value for money

The Indiana Line loudspeakers from the Nota series ensure the efficiency necessary to achieve the high-quality sound as well as the high level of dynamics required by the most advanced sound systems. The models belonging to the Nota series, in combination with the appropriate audio or audio-video components, will guarantee users amazing emotions, e.g. when playing a live concert or watching action movies. The optimized production process and the perfect blend of all components bring to life this range of loudspeakers, distinguished by their great value for money.

The timeless design of Nota 240 X

The timeless cabinet shapes of the Indiana Line Nota 240 X bookshelf model are a perfect proof of the craftsmanship of Italian design. The elegantly contoured side panels of this loudspeaker are finished with a durable and aesthetic vinyl in light walnut or black oak. Nota 240 X will not only decorate the room, but will also surprise you with an exciting and engaging sound with exceptionally high dynamics, as for such a small construction.

Clear and smooth sound

A polypropylene cone of the mid-woofer with a characteristic micro-grooving (similar to a CD) gently and smoothly reproduces the sound of the midrange, and at the same time guarantees a strong reproduction of deep bass. A textile dome tweeter with a neodymium magnet and a unique radial rear chamber have been placed in a specially profiled front. To emphasize the uniqueness of the Indiana Line loudspeakers from the Nota series, only air coils and foil capacitors have been used in the tweeter filter, thanks to which the treble sounds are clear and distinct.

Nota 240 X speakers – perfect for small interiors

The Indiana Line Nota 240 X is a light and compact 2-way loudspeaker with a 26 mm dome tweeter, 102 mm woofer and a bass reflex port at the back of the cabinet. This speaker is dedicated to little apartments and interiors of up to 12 m². Because of the relatively small size, you can place it literally anywhere. It is ideal as an effect loudspeaker both in a home theater and in a TV sound system (in combination with an appropriate amplifier) or as part of a micro system.

The most important features of the Nota 240 X model:

- 2-way bookshelf acoustical design
- Crossover frequency: 3 kHz
