

TESI 241

Speakers with traditions

Indiana Line is a valued Italian brand whose history dates back to 1977. Its philosophy has always been the highest quality of workmanship and the rational use of components in order to achieve sonic qualities that go far beyond the nominal parameters. All Indiana Line products are characterized by impeccable style and unrivalled sound in their price range.

Tesi – the essence of Italian style

The classic and at the same time modern rounded edges of the Tesi series loudspeakers are the essence of Italian style. They are finished with a durable and aesthetic vinyl in light walnut or black oak. The Tesi series speakers perfectly complete the variety of interiors. They not only look good, but also surprise with a complete and exceptionally mature sound.

The Tesi 241 bookshelf speaker

The Indiana Line Tesi 241 is a light and compact 2-way bookshelf speaker with a 26 mm silk dome tweeter, a 120 mm mid-woofer and a back firing bass reflex port. This model has been created for smaller rooms (up to 12 m²). It can be used as an effect speaker or as a pair of stereo speakers. The Tesi 241 has amplifier loading impedance between 4 – 8 ohms, and the dedicated amplifier power to drive this acoustical construction is 30 to 80 W.

Complete sound

The appropriately shaped cone of the mid-woofer is made of a mixture of mica and polypropylene. Equipped with a phase plug, it provides exceptionally detailed and faithful sound in the midrange. A silk dome tweeter with a neodymium magnet and a radial rear chamber is placed in a properly cut and specially profiled front, close to the mid-woofer. It offers open and clear treble with a sparkle of finesse in the highest octave. To emphasize the unusual quality of the loudspeaker, only air coils and foil capacitors have been used in the tweeter filter.

The most important features of the Tesi 241 model:

- 2-way acoustical design
- Crossover frequency: 2,7 kHz
- 120 mm mid-woofer
- 26 mm silk dome tweeter
- Bass reflex cabinet with a port at the back
- Frequency response: 58 Hz to 22 kHz
- Finish: black oak or light walnut
- Suggested amplifier power: 30 – 80 W
- Sensitivity: 90dB (2,8 V / 1m)
- Dimensions (H x W x D): 245 x 140 x 180 mm
- Weight: 2,5 kg
